

Working with the largest names in Industry all around the UK, Scrimsign has specialised in customising our products to meet the changing needs of your organisation.

Having supplied solutions to the Oil, Nuclear Power, Coal Fired Power, Gas Fired Power, Wind Turbine Power and Electricity Supply industries as well as the Transport, Prison Services and the Brewery industries amongst others, Scrimsign are able to supply effective and controllable solutions to enhance your health and safety initiatives.

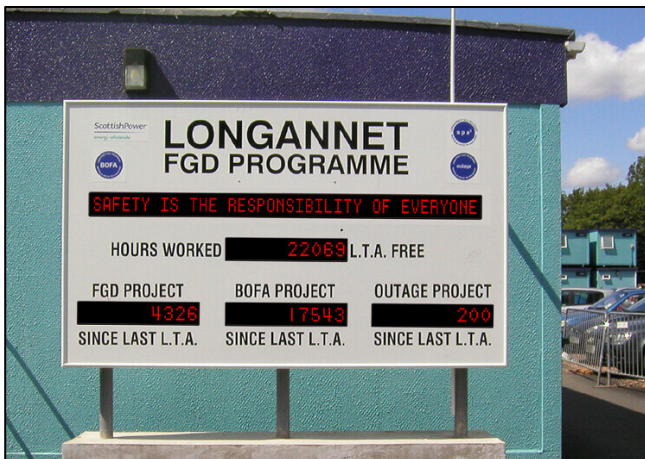

Products include:

- **Outdoor Variable Message Boards**
- **Indoor Variable Message Boards**
- **Bespoke Interactive Kiosks with a range of accessories such as keyboards, touch screens, printers etc**
- **LCD Display Screens with full Network Digital Multimedia support**

All solutions can be fully controlled from a central PC; allowing the display of scheduled or user input updates to content, as well as the display of live information.

Whether looking to display information about current alert status, local area or general safety information for staff and visitors, live information relating to works in progress, Accident Incident statistics, or indeed any other related application, Scrimsign Electronic Health and Safety Solutions can help you achieve any goal.

External Health and Safety Displays – Scrimsign has provided solutions to a broad spectrum of industries for over 20 years, providing an equally broad spectrum of easy to use and effective solutions.

Health and Safety Displays – There are any number of possible display formats employing Backlit Corporate Branding, Hi Grade Vinyl Corporate Branding and a range of LED character heights, colours and and brightness. Our in-house bespoke software and substantial hardware can provide accurate, reliable solutions to your various needs.

Health and Safety Kiosks – As well as LED technology, we have provided a wide range of LCD Interactive Kiosks. Once again these can be custom designed to suit your needs precisely. We also provide Larger format LCD screens and Network Digital Signage technology allowing Multi Media and Multi zone display content.
