

education display systems

providing the best visual information technology in its class

Having worked with hundreds of Schools, Universities and Colleges in the past 25 years, Scrimsign are well placed to meet your needs.

Scrimsign offers a range of outdoor and indoor solutions to cover all your needs, including; Digital Signage, LED Display Boards, Projection Systems LCD Media Screens, Interactive Kiosks, Welcome Signs and bespoke systems.

Our Display Systems utilise a variety of well proven communication technologies ensuring reliable information delivery from a PC to the front end Displays, wherever you require them to be located. This means that your media, be it simple text messages, videos, live feed or presentation packages can be controlled directly giving you the flexibility to easily maintain, schedule and update the content dynamically.

Specialising in bespoke design and software applications, Scrimsign can provide the high visibility and accuracy of information, getting it to your audience on time every time, wherever they might be.
